13. I think the GHS PTSA is a fabulous organization doing incredible things on behalf of Gabrielino students and families. I love that we are becoming more diverse and inclusive and am so appreciative of all the volunteers donating their, time, energy and talents!
14. If the tutoring gets started asking Teacher's to provide classroom credit for those who attend to keep keep up their grades. This would be especially motivating for kids who need extra help, and want to do well and who just don't test well.
15. Happy with school administrators & PTSA board members
16. Can the school request teachers to not have major projects due on the same day as when the different windows for college applications are due? For example, some applications have an "early admission" date, others do not. Depending on the number of colleges the student is applying to, there could be 3 different major deadline windows.
